

LABOKLIN, one of the biggest Veterinary Diagnostic Laboratories in Europe, is looking for a Clinical Pathologist to join our team.

Our main laboratory is based in Bad Kissingen, Germany, in the state of Bavaria. Over 300 hundred highly specialized veterinarians, biologists and technicians work in the different departments including clinical and anatomic pathology, microbiology and molecular biology.

The responsibilities of the candidate would include:

- Reporting of hematology and cytology results
- Giving professional advise to veterinarians
- Resident co-supervision and training of colleagues
- Interaction with the satellite labs in various countries including the UK, the Netherlands, Spain and Poland

Applicants:

- Must be ECVCP Diplomates or ECVCP Board Eligible
- Knowledge of German language is not required, although it would be preferable

For enquiries and applications, please contact the LABOKLIN CEO, Dr. Elisabeth Müller:
