

CLINICAL PATHOLOGIST – IDEXX Laboratories Ltd

IDEXX, the global leader in Veterinary Diagnostics, is seeking a qualified CLINICAL PATHOLOGIST to join a team of 26 veterinary professionals serving the UK market.

We are looking to further expand the UK professional team with the addition of a fulltime qualified Clinical Pathologist to be based at our Reference Laboratory in Wetherby, West Yorkshire.

Preference will be given to Prospective candidates who hold a recognised qualification in Veterinary Clinical pathology (ECVCP, ACVP, FRCPath) and have previous experience working in a commercial diagnostic laboratory and a commitment to providing a high quality and personalised pathology service. Candidates without a formal qualification in clinical pathology, but eligible to sit a board exam with the relevant colleges, will be considered depending on experience, particularly in cytopathology.

The Clinical Pathology Team is responsible for:

- The examination of cytology specimens
- Haematology path reviews
- Written interpretation of laboratory results, including microbiology
- Phone consultations, in the areas of clinical pathology and internal medicine for a variety of animal species

IDEXX Laboratories is rapidly expanding in Europe where it employs more than 60 veterinary specialists supporting 11 Reference laboratories.

The Wetherby Laboratory performs high quality diagnostic work for a variety of animal species, is accredited to the ISO/IEC 17025:2005 standard for testing laboratories and employs more than 120 staff between veterinary professionals, qualified technicians, management, and clerical staff.
