

The Laboratory of the Veterinary School of Toulouse, France

is opening the following position

Resident in clinical pathology

This 3-year program will be starting between September 1st 2020 and August 31st 2023 and is structured according to the ECVCP guidelines. Applicants must have successfully completed a 12-month rotating internship or have gained equivalent experience during two years in small animal practice or clinical pathology and showed special interest in clinical pathology.

The candidate must have good knowledge of the French language and basic knowledge of the English language.

Applications should include a letter of intent, curriculum vitae and 3 reference letters.

Description of the program:

The program encompasses responsibility in clinical pathology cases and includes internal and external rotations (in France, Europe and United States) in related specialties (PCR, Lab animal, Endocrinology, ...).

The resident will perform a clinical research project. He or she will participate in the 3 weekly clinical pathology rounds (hematology, cytology and biochemistry), in weekly journal clubs, in 3 ECVCP congresses, in one American ACVP congress for the last year of residency. The candidate will also be involved in clinical pathology teaching of students and interns. One of the objectives of the program is to qualify the applicant to the ECVCP examination and certification.

Deadline for application is July 3rd (midnight)

Application should be submitted by post mail and E-mail to:

Madame Boranny Chan

Unité de Biologie Médicale

École Nationale Vétérinaire de Toulouse

23 chemin des Capelles

31076 Toulouse cedex 3

France

E-mail address: Catherine.trumel@envt.fr and fanny.granat@envt.fr

A preliminary selection will take place and selected applicants will interview on one of the following days: July 8th or 9th. For further information about the program, please contact Professeure Catherine Trumel at Catherine.trumel@envt.fr
