

# We're Hiring a **Clinical Pathologist (m/w/d)** in Germany!

We are looking to expand our growing team of 8 clinical pathologists at our new IDEXX laboratory in Kornwestheim, Germany (opened April 2020). As a Clinical Pathologist the majority of your duties involve, but is not limited to, providing clients with diagnostic evaluation in the area of clinical pathology and providing necessary follow-up consultation.

IDEXX reference laboratories is a global network united by a shared commitment to enhancing pet care where the true strength in our name is the people behind it. Our reference laboratories make it possible for our customers to discover more with our unrelenting commitment to innovation, personalized support, guidance, and expertise, while providing the most complete and advanced menu of diagnostic tests along with technology and tools.

## **In This Role:**

- You are responsible for gross and/or microscopic examination of clinical pathology specimens and preparation of pathology reports in a timely manner.
- You will meet caseload and turnaround expectations.
- You are responsible for providing telephone consultations to clients.
- You consult with and assist other pathologists as needed to promote collegiality.
- You will partner with, advise and assist laboratory personnel in proper specimen processing techniques and function as the pathologist on duty.
- You promote the growth of IDEXX by actively participating in pathologist meetings and developing and maintaining professional relationships/contact with clients.
- You participate in the quality control programs.
- You maintain proficiency and develop diagnostic skills through regular continuing education.
- Time may be provided off of routine diagnostic responsibilities to allow the pathologist to engage in other professional activities as approved by management. Such activities should improve the function or professional reputation of IDEXX.

## **What You Will Need to Succeed:**

- You are fluent in German and English.
- You are familiar with current topics and issues in clinical veterinary medicine.
- You are able to type and use dictation equipment.
- You have excellent verbal and communication skills and a service-oriented attitude.
- You are able to organize and prioritize work.
- Computer skills are required.
- Experience in a veterinary diagnostic laboratory is preferred.

## **CERTIFICATIONS:**

- Board certification in clinical pathology - American College of Veterinary Pathology (ACVP) or European College of Veterinary Clinical Pathology (ECVCP) preferred.
- Applications from board eligible pathologists are also encouraged. The candidate will be supported when studying for boards.

## **Our Mission**

We're proud of the work we do, because our work matters. An innovation leader in every industry we serve, we follow our Purpose and Guiding Principles to help pet owners worldwide keep their companion animals healthy and happy, to ensure safe drinking water for billions, and to help farmers protect livestock and poultry from disease. We have customers in over 175 countries and a global workforce of over 9,000 talented people.
