

Clinical Track Clinical Pathology Position North Carolina State University College of Veterinary Medicine

The College of Veterinary Medicine (CVM) at North Carolina State University invites applications for a clinical (non-tenure) track Clinical Pathology position at the rank of Assistant Professor. A DVM (or equivalent) degree and ACVP board certification or eligibility are required. The successful candidate will join our outstanding and growing team including three faculty clinical pathologists, four clinical pathology residents, and well-staffed Clinical Pathology Laboratory.

This position contributes to the teaching, service, and scholarly mission of the Population Health and Pathobiology Department. The responsibilities assigned to this position are primarily teaching and clinical service duty including the diagnostic interpretation of cytology, clinical immunology, hematology and urine samples, consultations with clinicians regarding laboratory results or sample submissions, and provide support to the clinical pathology and immunology laboratory. Teaching responsibilities include didactic and small group instruction of DVM students, clinical year student rotations, elective courses, mentoring of students, and hands-on training of pathology residents and other House Officers.

Engagement in scholarly activity through collaborative and/or independent research should include mentorship of pathology resident case reports and projects. Collaboration opportunities exist within NCSU as well as with regional universities (Duke University and the University of North Carolina at Chapel Hill), government agencies and corporations within the Research Triangle.
