

Veterinary Clinical Pathologist

Location: On-site (Finn Pathologists or Axiom), hybrid, or fully remote

Employment: Full-time or part-time with occasional Saturday rota

The Employer:

CVS Group plc is one of the largest integrated veterinary services providers in the UK and owns hundreds of veterinary practices throughout the UK, Netherlands, Republic of Ireland and Australia. Our vision is that we want to be the veterinary company people most want to work for. This will help us to attract the very best people and achieve our purpose of delivering the best possible care to animals.

Our Laboratory Division (Finn Pathologists and Axiom laboratories) is dedicated to providing the highest quality diagnostic pathology services, with two laboratories (Norfolk and Devon). We offer a comprehensive range of testing including biochemistry, endocrinology, serology, haematology, microbiology, cytology and histopathology. We are constantly upgrading our methods and employ innovative technologies, including digital cytology infrastructure and services.

The Role:

We are looking for a dynamic clinical pathologist to join our team. Primary duties and responsibilities include:

- Reporting of cytology and haematology submissions (on glass or digitally), ensuring timely turnaround of results
- Participation in the interpretation and validation of clinical pathology results in conjunction with the internal medicine team as required
- Providing telephone consultations to clinical veterinarians relating to clinical pathology results
- Participating in all stages of the quality control programs

Essential qualifications and experience:

Degree of Veterinary Medicine

Active MRCVS status (UK or overseas)

Formal postgraduate training in veterinary clinical pathology under the supervision of a certified veterinary clinical pathologist

Minimum 3 years of diagnostic clinical pathology experience

Preferable:

Board certification in veterinary clinical pathology (Dip. ECVCP, Dip ACVP, FRCPath, or equivalent)

We believe that clinical pathologists should be supported in their interests and growth and this is why:

- We are giving our clinical pathologists protected time to prepare and deliver clinical pathology training to residents from CVS clinical division
- We are offering our clinical pathologists a generous CPD allowance and CPD leave
- We are encouraging our clinical pathologists to deliver CPD sessions to clinical veterinarians and are giving them protected time off-duty to prepare
- Our clinical pathologists can apply for CVS-funded research, either independently or in collaboration with clinical veterinarians

Salary is highly competitive, based on workload and experience. We offer a wide range of additional benefits including:

- Up to 7 weeks annual leave plus bank holidays with our Buy/Sell Holiday Scheme
- Enhanced Maternity, Paternity and Adoption Pay
- Access to the CVS share save scheme
- Access to Perkbox
- Cycle to work scheme, discounted gym membership and much much more!
