

POSITION ANNOUNCEMENT

POSITION: Veterinary Clinical Pathologist, Clinical-Track
Department of Pathobiology
College of Veterinary Medicine
Auburn University, Alabama

RANK: Assistant/Associate/Full Clinical Professor

POSITION AVAILABLE: May 1, 2023

QUALIFICATIONS: Minimum qualifications include D.V.M. degree (or equivalent) and diplomate status in clinical pathology from the American College of Veterinary Pathologists, the European College of Veterinary Pathologists, or the Royal College of Pathologists at the time employment begins. The successful candidate must meet eligibility requirements for work in the United States at the time the appointment is scheduled to begin and continue working legally for the term of employment.

RESPONSIBILITIES: Desired qualifications include excellence in diagnostics, didactic classroom or small group instruction, written and interpersonal communication, and teaching/educational scholarship. The successful candidate will be expected to participate in the clinical pathology service, the training and supervision of clinical pathology residents and graduate students, and the clinical training of veterinary students. Auburn University maintains the tradition of training practice ready veterinarians and clinical pathologists. Auburn is collectively dedicated to residency training in clinical pathology through communal interactions between faculty and residents with focused resident rounds.

ACTIVITIES: Didactic teaching responsibilities include participation in the professional veterinary medical curriculum and graduate curriculum. Pedagogy and scholarly activity will be synergistic with the College's research, teaching and clinical service missions.

The Department of Pathobiology is composed of a dynamic faculty of multiple disciplines, including 5 ACVP board certified clinical pathologists, 5 ACVP board certified anatomic pathologists. In addition, the College of Veterinary Medicine has a recently constructed Veterinary Education Center with state-of-the-art technology dedicated to the enhancement of teaching.

The duties of this position will be divided mainly between diagnostic service in the Veterinary Clinical Pathology Laboratory and didactic and laboratory instruction. Opportunities for collaborative research exist within the department, college, and university, and scholarly activities involving applied clinical research and pedagogical research are encouraged within the department. The Clinical Pathology Section includes five board-certified clinical pathologists and has a strong track record with its residency training program. The section strives to provide excellent diagnostic service, and the laboratory is located within the Wilford & Kate Bailey Small Animal Teaching Hospital, facilitating open communication with clinicians and veterinary students. Diagnostic samples are submitted for evaluation from both the large and small animal teaching hospitals, outside veterinarians, the Raptor Center and a variety of researchers. Collaborating diagnostic services within the Department of Pathobiology include anatomic pathology, parasitology, microbiology, virology/serology, and molecular diagnostics. University core facilities support advanced microscopy and imaging, laser microdissection, multispectral imaging, and flow cytometry-

FACS. Departmental research programs exist in aquatic pathobiology, molecular virology and bacteriology, molecular diagnostics, food safety, pathogen detection, basic and applied immunology, parasitology, platelet pathophysiology, molecular genetics, oncology, pathogenetic mechanisms of infectious diseases, embryo- pathogen interactions, epidemiology, poultry pathology and neuropathology. Additional opportunities for teaching and research collaboration are available within the College of Veterinary Medicine and with faculty from across Auburn University (including the Samuel Ginn College of Engineering, College of Science and Mathematics, and Harrison School of Pharmacy).

The College of Veterinary Medicine affirms that diversity, equity, and inclusion are core values of our college and serve to enhance excellence in education, service, research, and outreach. The College of Veterinary Medicine will foster an environment that is culturally sensitive, respectful, welcoming, and inclusive in its interactions with its communities.

The College of Veterinary Medicine affirms its commitment to the recruitment, admissions, hiring, promotion, retention, and education of talented students, faculty, and staff members whose backgrounds reflect rich ethnic and cultural diversity. The college is committed to cultivating a climate that celebrates and supports diversity, equity, and inclusion not just in writing, but in the everyday actions and the policies that are implemented and maintained at the college.

APPOINTMENT: Starting salary and appointment will be commensurate with professional and academic credentials and experience.

AMENITIES: The College of Veterinary Medicine is located on the Auburn University campus in east-central Alabama community of Auburn-Opelika. The vibrant Auburn- Opelika community has a population of over 160,000. The Auburn community has an excellent public school system, regularly ranking in the top 200 systems out of 10,000 in the US. There are strong medical health facilities. The Jay and Susie Gogue Performing Arts Center brings national and international performances to Auburn. Outdoor recreational opportunities including trails for walking or cycling, Lake Martin with 720 miles of shoreline, National Forest and State Parks are available. The major metropolitan areas of Atlanta, Birmingham, and Montgomery are no more than a two-hour drive, contain diverse personal interest points, and travel venues. Auburn University is one of the nation's premier land, sea, and space grant institutions. In the 2022 edition of U.S. News and World Report, it was ranked 42nd among the nation's public universities.

Auburn is an institution that is both highly research-active and committed to maintaining teaching excellence, offering Bachelor's, Master's, Educational Specialist, and Doctoral degrees. Enrollment in 2021 was over 31,000 students and included 24,931 undergraduates, 5,346 graduate students, and 1,249 professional-doctorate students in Pharmacy and Veterinary Medicine. There are 1,644 instructional faculty members distributed across nine Colleges and three Schools. Degrees are offered in more than 200 academic programs.

Auburn University is nationally recognized for its commitment to academic excellence, positive work environment, exciting student life, and the beauty of its campus. Collaborative opportunities are readily available within the College of Veterinary Medicine and across the Auburn University campus as well as at medical colleges at the University of Alabama at Birmingham and Emory University. Auburn residents enjoy a thriving community, recognized as one of the "best small towns in America," with moderate climate and easy access to major cities or to beach and mountain recreational facilities. Situated along the rapidly developing I-85 corridor between Atlanta, Georgia, and Montgomery, Alabama. Auburn is

located approximately 1.5 hours southwest of Hartsfield-Jackson Atlanta International Airport with day-round shuttle service that is friendly for both business and leisurely travel. The combined Auburn-Opelika-Columbus statistical area has a population of over 500,000 with excellent regional medical centers. The Auburn K-12 public school system has a Niche ranking of 216 and is considered one of the best public school systems in the United States. It contains the number one public elementary school in Alabama, which also is ranked number four for the most diverse public elementary schools in Alabama. Multiple other schools are in the top 25 in both school rankings and diversity. A local private K-12 school is noted as an Apple Distinguished school for continuous innovation in learning, teaching and school environment.

APPLICATION: Please apply online at <https://www.auemployment.com/postings/28576>.

Review of applications will begin April 20, 2022 and continue until a candidate is recommended for appointment. Applicants should submit a cover letter, curriculum vitae, transcripts, outline of scholarship or research plans, statement of teaching philosophy, letter of intent summarizing career goals and current research activities, and names and contact information including e-mail addresses for three references. The candidate selected for this position must be able to meet eligibility requirements to work in the United States at the time of appointment is scheduled to begin and continue working legally for the proposed term of employment.
