

## **Opening for a Veterinary Clinical Pathologist**

We are looking for a clinical pathologist with interest in education, research and diagnostic in veterinary clinical pathology to join the clinical pathology laboratory of VetAgro Sup. VetAgro Sup is one of the four veterinary schools in France and is located near Lyon (South-east of France)

Primary duties and responsibilities include hematology education to veterinary students and diagnostic in the daily routine (cytology, hematology, endocrinology, biochemistry) within our clinical pathology laboratory

We will consider applicants looking for full time hours.

Applicants should have, or be close to gaining board certification in Clinical Pathology (ECVCP, ACVP) and be ready to work in a busy educative and research environment.

The applicant must be fully able to communicate (speaking and writing) in French.

Salary is based on qualification and experience

This post is available from 1 January 2019
