

## **Veterinary Clinical Pathologists**

We are currently looking for additional clinical pathologists (full or part time) to join our established clinical pathology team at Axiom Veterinary Laboratories in Devon and/or Finn Pathologists in Norfolk.

We handle a wide range of sample types from both UK and international clients. The workload is predominantly from first and second opinion companion animal practices with a growing diagnostic capability for equine and farm animal cases. You would be joining our team of Clinical Pathologists and Internal Medicine Consultants but also collaborating with our Histopathology team.

Ideally you will have completed a residency training programme in clinical pathology and be a specialist (ACVP/ECVCP) or FRCPath qualified. You will be exposed to a wide range of material, diagnostic cytology, interpretation of results, client communication and be able to develop your own areas of interest.

Our laboratories are also currently supporting residency programs in clinical and anatomical pathology.

Salary will be based on the successful candidates' experience, and we offer a wide range of additional benefits.

If you wish to discuss this opportunity further please contact Kostas Papasouliotis [kostas.papasouliotis@axiomvetlab.co.uk](mailto:kostas.papasouliotis@axiomvetlab.co.uk) +44 (0) 786 720 814
