University of Edinburgh

Lecturer/Senior Lecturer in Veterinary Clinical Pathology *UE08 / UE09*

The Royal (Dick) School of Veterinary Studies wishes to appoint a full-time Lecturer or Senior Lecturer in Veterinary Clinical Pathology. This position, beginning in September 2021, is an exciting opportunity to join a vibrant and international team and to contribute to the further development of the diagnostic pathology service, teaching of pathology, and the School's research programme.

Covering all aspects of clinical pathology, though mainly haematology and cytology, the successful candidate will play an important role in the diagnostic work of Easter Bush Pathology. The successful candidate will contribute in the delivery and assessment of the BVM&S undergraduate teaching programme, of eLearning and on-line teaching initiatives, and the training of residents in clinical pathology and of other disciplines. The successful candidate will make a significant contribution to research within the School, the Roslin Institute, and the wider Centre for Comparative Pathology.

You will be based in the new Veterinary School building, opened in 2011 and part of the Easter Bush Campus, ideally located at the foot of the gorgeous Pentland hills. Interaction with colleagues across the range of disciplines will offer you the stimulation and support required to further develop your interests and career ambitions.

You will hold a veterinary degree and will be an MRCVS (or eligible to become an MRCVS). You will be qualified in veterinary clinical pathology to diploma level (e.g. DipECVCP, DipACVP [Clin Path] or FRCPath), although Board-eligible candidates are also encouraged to apply. Practical experience in the delivery of a diagnostic clinical pathology service and some teaching and research experience is essential.

Informal enquiries are welcomed and should be directed to Dr Jorge del Pozo, Interim Head of Easter Bush Pathology, on +44 0131 650 8707 or Jorge.del.pozo@ed.ac.uk
